Education

Florida State University Expected Spring/Summer 2027
Ph.D. in Mathematics
Advisors: Washington Mio and Tom Needham

Tulane University 2021
M.S. in Computer Science
Advisor: Carola Wenk

Publications and Preprints

1. **Pan Fang**, Washington Mio, and Tom Needham. *Landscape Intervals: A Geometric Framework for Multiparameter Persistence Landscapes.* arXiv preprint, arXiv:2610.42090, 2026.
2. Maike Buchin, Erin Chambers, **Pan Fang**, Brittany Terese Fasy, Ellen Gasparovic, Elizabeth Munch, and Carola Wenk. *Distances Between Immersed Graphs: Metric Properties. La Matematica,* **2**, 197-222, 2023. DOI: 10.1007/s44007-022-00037-8.
3. **Pan Fang** and Carola Wenk. *The Fréchet Distance for Plane Graphs.* Workshop extended abstract, *Book of Abstracts, 37th European Workshop on Computational Geometry (EuroCG)*, 62:1-62:5, 2021.
4. Boris Aguilar, **Pan Fang**, Reinhard Laubenbacher, and David Murrugarra. *A Near-Optimal Control Method for Stochastic Boolean Networks. Letters in Biomathematics,* **7**(1), 67-80, 2020.

Presentations

2026 *Generalized multiparameter persistence landscapes.* Poster presentation, Graph Methods in TDA Workshop, MSU.

2025 *Multiparameter persistence landscapes.* Machine Learning Seminar.

2024 *Euler characteristic transform.* Department of Mathematics, Florida State University.

2020 *Distance Measures for Embedded Graphs.* Department of Computer Science, Tulane University.

Teaching Experience

Instructor of Record, Florida State University

MAP2302	Ordinary Differential Equations	Fall 2026
MAP2302	Ordinary Differential Equations	Summer 2026
MAC2313	Calculus with Analytic Geometry III	Spring 2026
MAC2313	Calculus with Analytic Geometry III	Fall 2025
MAS3105	Applied Linear Algebra I	Summer 2025
MAC2312	Calculus with Analytic Geometry II	Spring 2025
MAC2311	Calculus with Analytic Geometry I	Fall 2024
MAC1140	Precalculus Algebra	Fall 2023

Honors and Awards

Distinguished Teaching Assistant Award April 2026
